DETAILED ACTION

1. Claims 5, 12, 17, 22-24 have been presented for examination.

Claims 1-4, 6-11, 13-16, and 18-21 have been cancelled.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: claims 5, 12, 17, 22-24 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims, specifically:

With respect to claims 5, 12, 17, 22-24 the recitation of a logic cone comparison section configured to select a corresponding logic cone, as a first logic cone, from among the logic cones extracted by the first logic cone extraction section by referencing the compile information, to select a corresponding logic cone, as a second logic cone, from among the logic cones extracted by the second logic cone extraction section by referencing the correspondence information, and to compare the first logic cone and the second logic cone, for each signal and description fragment to be compared in the behavioral level description and the RT, level description which are specified by the correspondence information and renders them allowable over the cited art of record.

The claims are rendered statutory since they produce a useful, concrete, and tangible result namely the hardware simulation on a CPU of multiple logic cones and the determination of a valid cone based on comparison of computer calculated hardware RT and behavioral level analysis of said cones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
